Dear Carl

RE: DONATION ENZA PROJECT IN MBEKWENI

Thank you for the kind donation of trees and soil towards the food garden for the Enza Skills Centre for underprivileged women.

During the weekend of 11 to 12 September 2010, we had an exhausting yet phenomenal Volunteer Makeover Weekend for the Enza project. Over 100 volunteers from the Drakenstein and Franschoek as well as greater Cape Town area worked to help us complete the finishings and the garden for the Skills Centre.

We now have built-in computer workstations, a fully fitted kitchen, fitted white boards and notice boards, a photocopy machine, a large table, desks, chairs as well as a beautiful food garden.

We are also trying to obtain funding to further secure the centre so that we can place items such as computers and sewing machines in the centre. Handcraft work and ABET training will commence at the Centre next week.

Donations to Enza are *tax deductible* in South Africa, as we are a Public Benefit Organisation registered under Section 18A of the Income Tax Law. Should you require a tax certificate we will gladly do so if you can provide us with the value of your donation as well as your address details for the certificate.

Without your support our dream to change the destiny of the women and girls in our focus group as well as other underprivileged women in the community will not be possible.

Please refer to our website <http://www.enza.za.org> as well as the Enza charity page on facebook for further updates on our project. We would love to have you visit the skills centre once it is operational.

Kind regards

**Tracey Collins
