

Dear Kerry and Kayden

We are writing to say a gigantic THANK YOU for the 200 trees recently donated to us for the Zwelihle Community Greening Project! We truly appreciate your continued efforts at working towards this worthy cause.

This is something we are having to implement now with new vision, since the project manager, Ivan Vokwana, has been dismissed for not fulfilling the conditions of his contract with OCF. We have ideas of involving the Zwelihle soccer club, who are most keen to get involved and help with the planting of trees. So we hope to have the show up and running again soon, after the temporary set back with Ivan.

We greatly appreciate your efforts at fundraising through your global cycling, Kayden - Well Done! Kerry, you must be very proud of your son. How are you doing? Did you move to the country as you had planned to (was it Bredasdorp or Napier)?

Kind regards and best of luck for your future cycling!

Meg and the OCF team.
