

# Rusoord Home for older persons and MANDELA DAY

and

On July 18, 2012 the team from Just Trees and their sister company redespesso® spent their 67minutes and more with the elderly people from Rusoord in Paarl.

Just Trees planter two 100L Podocarpus henkelii "Henkel's Yellow" trees at the entrance towards La Rochelle Girls Primary School. These trees will frame the entrance, draw attention and complement the architecture of the building.

The redespesso® Team made a grand total of 167 red cappuccinos for the residents of Rusoord.

They spent their 67minutes and more making each cup a master piece.

A red espresso topped with steamed and foamed milk, served with a signature swirl of honey and a sprinkling of cinnamon.

We trust the time spent with them has sweetened up their day
