The Manager

Just Trees

Dear Sir/Madam

APPLICATION FOR A DONATION OF TREES

As the community of the above mentioned location situated in Qumbu Eastern cape, we are very much concerned about the environment, we believe that greening the environment could alleviate environmental challenges such as erosion, pollution, restoration of ecosystems and to sustain the environment.

In our community we continue to campaign against deforestation and educate community members about the beneficial co-existence between trees and humans .By doing so we are trying to slightly reverse factors such as global warming for the benefit of future generation, we are advocating that trees must not run away from us.

In those few words we are appealing from you for a donation of trees in order to green out environment, planting trees is part of development, planting trees today will benefit the young generation in many ways, they will indeed enjoy their shades even if we are all gone.

We hope that our application would be successful.

Yours faithfully

Sandile Bontsa
